Subject Index

Hearing

Nature of Hearing and Its Disorders

Normal Auditory Systems

Age of second-language acquisition and perception of speech in noise. Mayo, L. H., Florentine, M., & Buus, S. June 1997, 686–693.

Auditory and auditory-visual perception of clear and conversational speech. Helfer, K. S. April 1997, 432–443.
Auditory development in complex tasks of comodulation masking release. Hall, J. W. III, Grose, J. H., & Dev, M. B. August 1997, 946–954.
MLD in children: Effects of signal and masker bandwidths. Grose, J. H., Hall, J. W. III, & Dev, M. B. August 1997, 955–959.
Modulation masking in listeners with sensorineural hearing loss. Lorenzi, C., Micheyl, C., Berthommier, F., & Portalier, S. February 1997, 200–207.
Recognizing famous voices: Influence of stimulus duration and different types of retrieval cues. Schweinberger, S. R., Herholz, A., & Sommer, W. April 1997, 453–463.
Relationships between subjective ratings and objective measures of performance in speechreading sentences. Demorest, M. E., & Bernstein, L. E. August 1997, 900–911.
Selected cognitive factors and speech recognition performance among young and elderly listeners. Gordon-Salant, S., & Fitzgibbons, P. J. April 1997, 423–431.

Auditory and Other Otic Pathologies

Effect of time and frequency manipulation on syllable perception in developmental dyslexics. McAnally, K. I., Hansen, P. C., Cornelissen, P. L., & Stein, J. F. August 1997, 912–924.

Hearing Loss and Deafness

Age-related and gender-related changes in monaural speech recognition. Dubno, J. R., Lee, F.-S., Matthews, L. J., & Mills, J. H. April 1997, 444–452.
Cochlear implant use by prelingually deafened children: The influences of age at implant and length of device use. Fryauf-Bertschy, H., Tyler, R. S., Kelsay, D. M. R., Gantz, B. J., & Woodworth, G. G. February 1997, 183–199.
Communication of oral deaf and normally hearing children at 36 months of age. Nicholas, J. G., & Geers, A. E. December 1997, 1314–1327.
A comparison of the benefit provided by well-fit linear hearing aids and instruments with automatic reductions of low-frequency gain. Humes, L. E., Christensen, L. A., Bess, F. H., & Hedley-Williams, A. June 1997, 666–685.
Effect of acoustic cues on labeling fricatives and affricates. Hedrick, M. August 1997, 925–938.
The effect of communication mode on the development of phonemic awareness in prelingually deaf students. Miller, P. October 1997, 1151–1163.
Effect of low-frequency gain reduction on speech recognition and its relation to upward spread of masking. Cook, J. A., Bacon, S. P., & Sammeth, C. A. April 1997, 410–422.
Effects of stimulus variability on speech perception in listeners with hearing impairment. Kirk, K. I., Pisoni, D. B., & Miyamoto, R. C. December 1997, 1395–1405.
Extended high-frequency thresholds in older adults. Matthews, L. J., Lee, F.-S., Mills, J. H., & Dubno, J. R. February 1997, 208–214.
Gap detection as a function of stimulus loudness for listeners with and without hearing loss. Nelson, P. B., & Thomas, S. D. December 1997, 1387–1394.
Modulation masking in listeners with sensorineural hearing loss. Lorenzi, C., Micheyl, C., Berthommier, F., & Portalier, S. February 1997, 200–207.
New developments in low-bit rate videotelephony for people who are deaf. Woelders, W. W., Frowein, H. W., Nielsen, J., Questa, P., & Sandini, G. December 1997, 1425–1433.
A preliminary account of the effect of otitis media on 15-month-olds' categorization and some implications for early language learning. Roberts, K. June 1997, 508–518.
Relationships between subjective ratings and objective measures of performance in speechreading sentences. Demorest, M. E., & Bernstein, L. E. August 1997, 900–911.
Role of fundamental frequency differences in the perceptual separation of competing vowel sounds by listeners with normal hearing and listeners with hearing loss. Arehart, K. H., King, C. A., & McLean-Mudgett, K. S. December 1997, 1434–1444.
Selected cognitive factors and speech recognition performance among young and elderly listeners. Gordon-Salant, S., & Fitzgibbons, P. J. April 1997, 423–431.
Speech recognition as a function of the number of electrodes used in the SPEAK cochlear implant speech processor. Fishman, K. E., Shannon, R. V., & Slattery, W. H. October 1997, 1201–1215.

Assessment of Hearing

Psychoacoustics

Auditory development in complex tasks of comodulation masking release. Hall, J. W. III, Grose, J. H., & Dev, M. B. August 1997, 946–954.
Effect of low-frequency gain reduction on speech recognition and its relation to upward spread of masking. Cook, J. A., Bacon, S. P., & Sammeth, C. A. April 1997, 410–422.
Effect of time and frequency manipulation on syllable perception in developmental dyslexics. McAnally, K. I., Hansen, P. C., Cornelissen, P. L., & Stein, J. F. August 1997, 912–924.
Gap detection as a function of stimulus loudness for listeners with and without hearing loss. Nelson, P. B., & Thomas, S. D. December 1997, 1387–1394.
MLD in children: Effects of signal and masker bandwidths. Grose, J. H., Hall, J. W. III, & Dev, M. B. August 1997, 955–959.
Modulation masking in listeners with sensorineural hearing loss. Lorenzi, C., Micheyl, C., Berthommier, F., & Portalier, S. February 1997, 200–207.
The perception of internal circuit noise in hearing aids by listeners with normal hearing. Agnew, J., & Block, M. October 1997, 1177–1191.
Recognizing famous voices: Influence of stimulus duration and different types of retrieval cues. Schweinberger, S. R., Herholz, A., & Sommer, W. April 1997, 453–463.
Role of fundamental frequency differences in the perceptual separation of competing vowel sounds by listeners with normal hearing and listeners with hearing loss. Arehart, K. H., King, C. A., & McLean-Mudgett, K. S. December 1997, 1434–1444.

Acoustical Instruments, Measurements, and Standards

The frequency sampling method of digital filter design: Comments on Hillenbrand and Houde (1996). Roark, R. M. April 1997, 405–408.
Precision of tympanometric measurements. Gaihede, M., & Ovesen, T. February 1997, 215–222.

Diagnostic Audiology—General

Extended high-frequency thresholds in older adults. Matthews, L. J., Lee, F.-S., Mills, J. H., & Dubno, J. R. February 1997, 208–214.

Specific Diagnostic Techniques and Approaches

COAE thresholds: 1. Effects of equal-amplitude versus subtraction methods. Fitzgerald, T. S., & Prieve, B. A. October 1997, 1164–1176.
Cochlear implant use by prelingually deafened children: The influences of age at implant and length of device use. Fryauf-Bertschy, H., Tyler, R. S., Kelsay, D. M. R., Gantz, B. J., & Woodworth, G. G. February 1997, 183–199.

Acoustic Immittance

Precision of tympanometric measurements. Gaihede, M., & Ovesen, T. February 1997, 215–222.

Behavioral

Recognizing famous voices: Influence of stimulus duration and different types of retrieval cues. Schweinberger, S. R.,

Herholz, A., & Sommer, W. April 1997, 453–463.
Vocal reaction times of children with CAPD, age-matched peers, and young adults to printed words. Dagenais, P. A., Cox, M., Southwood, M. H., & Smith, S. C. June 1997, 694–703.

Electrophysiologic
P300 event-related potentials in stutterers and nonstutterers. Morgan, M. D., Cranford, J. L., & Burk, K. December 1997, 1334–1340.
Scalp potentials evoked by amplitude-modulated tones in dyslexia. McAnally, K. I., & Stein, J. F. August 1997, 939–945.

Pediatric
Cochlear implant use by prelingually deafened children: The influences of age at implant and length of device use. Fryauf-Bertschy, H., Tyler, R. S., Kelsay, D. M. R., Gantz, B. J., & Woodworth, G. G. February 1997, 183–199.

Speech
Age of second-language acquisition and perception of speech in noise. Mayo, L. H., Florentine, M., & Buus, S. June 1997, 686–693.
Age-related and gender-related changes in monaural speech recognition. Dubno, J. R., Lee, F.-S., Matthews, L. J., & Mills, J. H. April 1997, 444–452.
Effect of acoustic cues on labeling fricatives and affricates. Hedrick, M. August 1997, 925–938.
Effects of stimulus variability on speech perception in listeners with hearing impairment. Kirk, K. I., Pisoni, D. B., & Miyamoto, R. C. December 1997, 1395–1405.
Selected cognitive factors and speech recognition performance among young and elderly listeners. Gordon-Salant, S., & Fitzgibbons, P. J. April 1997, 423–431.
Vocal reaction times of children with CAPD, age-matched peers, and young adults to printed words. Dagenais, P. A., Cox, M., Southwood, M. H., & Smith, S. C. June 1997, 694–703.

Masking
Modulation masking in listeners with sensorineural hearing loss. Lorenzi, C., Micheyl, C., Berthommier, F., & Portalier, S. February 1997, 200–207.

Intervention

Habilitation, Rehabilitation, and Education
Auditory and auditory-visual perception of clear and conversational speech. Helfer, K. S. April 1997, 432–443.
Multisensory speech perception of young children with profound hearing loss. Kishon-Rabin, L., Haras, N., & Bergman, M. October 1997, 1135–1150.
New developments in low-bit rate videotelephony for people who are deaf. Woelders, W. W., Frowein, H. W., Nielsen, J., Questa, P., & Sandini, G. December 1997, 1425–1433.

Hearing Aids and Other Prostheses
Cochlear implant use by prelingually deafened children: The influences of age at implant and length of device use. Fryauf-Bertschy, H., Tyler, R. S., Kelsay, D. M. R., Gantz, B. J., & Woodworth, G. G. February 1997, 183–199.
A comparison of the benefit provided by well-fit linear hearing aids and instruments with automatic reductions of low-frequency gain. Humes, L. E., Christensen, L. A., Bess, F. H., & Hedley-Williams, A. June 1997, 666–685.
Effect of low-frequency gain reduction on speech recognition and its relation to upward spread of masking. Cook, J. A., Bacon, S. P., & Sammeth, C. A. April 1997, 410–422.
Effect of relative amplitude and formant transitions on perception of place of articulation by adult listeners with cochlear implants. Hedrick, M. S., & Carney, A. E. December 1997, 1445–1457.
Effects of stimulus variability on speech perception in listeners with hearing impairment. Kirk, K. I., Pisoni, D. B., & Miyamoto, R. C. December 1997, 1395–1405.
Multisensory speech perception of young children with profound hearing loss. Kishon-Rabin, L., Haras, N., & Bergman, M. October 1997, 1135–1150.
The perception of internal circuit noise in hearing aids by listeners with normal hearing. Agnew, J., & Block, M. October 1997, 1177–1191.
Speech recognition as a function of the number of electrodes used in the SPEAK cochlear implant speech processor. Fishman, K. E., Shannon, R. V., & Slattery, W. H. October 1997, 1201–1215.

Aging
Age-related and gender-related changes in monaural speech recognition. Dubno, J. R., Lee, F.-S., Matthews, L. J., & Mills, J. H. April 1997, 444–452.
Extended high-frequency thresholds in older adults. Matthews, L. J., Lee, F.-S., Mills, J. H., & Dubno, J. R. February 1997, 208–214.
Selected cognitive factors and speech recognition performance among young and elderly listeners. Gordon-Salant, S., & Fitzgibbons, P. J. April 1997, 423–431.

Central Auditory Processing Disorders
Vocal reaction times of children with CAPD, age-matched peers, and young adults to printed words. Dagenais, P. A., Cox, M., Southwood, M. H., & Smith, S. C. June 1997, 694–703.

Communication Systems for People Who Are Deaf
New developments in low-bit rate videotelephony for people who are deaf. Woelders, W. W., Frowein, H. W., Nielsen, J., Questa, P., & Sandini, G. December 1997, 1425–1433.

Hearing Speech Processing
The frequency sampling method of digital filter design: Comments on Hillenbrand and Houde (1996). Roark, R. M. April 1997, 405–408.

Otitis Media and Language
A preliminary account of the effect of otitis media on 15-month-olds' categorization and some implications for early language learning. Roberts, K. June 1997, 508–518.

Otoacoustic Emissions
COAE thresholds: 1. Effects of equal-amplitude versus subtraction methods. Fitzgerald, T. S., & Prieve, B. A. October 1997, 1164–1176.

Time and Frequency Manipulation
Effect of time and frequency manipulation on syllable perception in developmental dyslexics. McAnally, K. I., Hansen, P. C., Cornelissen, P. L., & Stein, J. F. August 1997, 912–924.

Language

Nature of Normal Language

Language Development
Age of second-language acquisition and perception of speech in noise. Mayo, L. H., Florentine, M., & Buus, S. June 1997, 686–693.
Cognition and communication: Referential strategies used by preschoolers with specific language impairment. Johnston, J. R., Smith, L. B., & Box, P. October 1997, 964–974.
Effect of time and frequency manipulation on syllable perception in developmental dyslexics. McAnally, K. I., Hansen, P. C., Cornelissen, P. L., & Stein, J. F. August 1997, 912–924.
The nature of word-finding errors of

preschoolers with and without word-finding deficits. McGregor, K. K. December 1997, 1232–1244.
Past-tense marking by children with and without specific language impairment. Oetting, J. B., & Horohov, J. E. February 1997, 62–74.
A preliminary account of the effect of otitis media on 15-month-olds' categorization and some implications for early language learning. Roberts, K. June 1997, 508–518.
Proverb explanation through the lifespan: A developmental study of adolescents and adults. Nippold, M. A., Uhden, L. D., & Schwarz, I. E. April 1997, 245–253.
The relationship between middle-class parents' book-sharing discussion and their preschoolers' abstract language development. van Kleeck, A., Gillam, R. B., Hamilton, L., & McGrath, C. December 1997, 1261–1271.
Signaling of noncomprehension by children and adolescents with mental retardation: Effects of problem type and speaker identity. Abbeduto, L., Short-Meyerson, K., Benson, G., & Dolish, J. February 1997, 20–32.
Symbolic play of children with language impairment: A critical review. Casby, M. W. June 1997, 468–479.
Syntactic complexity, fluency, and accuracy of sentence imitation in adolescents. Silverman, S. W., & Ratner, N. B. February 1997, 95–106.
Trochaic template use in early words and phrases. McGregor, K. K., & Johnson, A. C. December 1997, 1220–1231.
Truncation patterns in English-speaking children's word productions. Kehoe, M., & Stoel-Gammon, C. June 1997, 526–541.

Language Use in Adults

Japanese speakers of American English: Competence with connectives in written language. Steffani, S. A., & Nippold, M. A. October 1997, 1048–1055.
A meta-analytic procedure shows an age-related decline in picture naming: Comments on Goulet, Ska, and Kahn (1994). Feyereisen, P. December 1997, 1328–1333.
Proverb explanation through the lifespan: A developmental study of adolescents and adults. Nippold, M. A., Uhden, L. D., & Schwarz, I. E. April 1997, 245–253.
The relationship between middle-class parents' book-sharing discussion and their preschoolers' abstract language development. van Kleeck, A., Gillam, R. B., Hamilton, L., & McGrath, C. December 1997, 1261–1271.
Syntactic complexity, fluency, and accuracy of sentence imitation in adolescents. Silverman, S. W., & Ratner, N. B. February 1997, 95–106.

Language Differences and Different Languages

Japanese speakers of American English: Competence with connectives in written language. Steffani, S. A., & Nippold, M. A. October 1997, 1048–1055.
Reducing bias in language assessment: Processing-dependent measures. Campbell, T., Dollaghan, C., Needleman, H., & Janosky, J. June 1997, 519–525.

Verbal Learning and Memory

Learning a new poem: Memory for connected speech and phonological awareness in low-income children with and without specific language impairment. Fazio, B. B. December 1997, 1285–1297.
Reducing bias in language assessment: Processing-dependent measures. Campbell, T., Dollaghan, C., Needleman, H., & Janosky, J. June 1997, 519–525.

Language Disorders

Aphasia and Other Adult Language Disorders

Auditory processing in individuals with mild aphasia: A study of resource allocation. Murray, L. L., Holland, A. L., & Beeson, P. M. August 1997, 792–808.
Determinants of sentence comprehension in aphasic patients in sentence-picture matching tasks. Caplan, D., Waters, G. S., & Hildebrandt, N. June 1997, 542–555.
The efficacy of computer-provided reading treatment for chronic aphasic adults. Katz, R. C., & Wertz, R. T. June 1997, 493–507.
Scalp potentials evoked by amplitude-modulated tones in dyslexia. McAnally, K. I., & Stein, J. F. August 1997, 939–945.
Training and generalized production of *wh-* and NP-movement structures in agrammatic aphasia. Thompson, C. K., Shapiro, L. P., Ballard, K. J., Jacobs, B. J., Schneider, S. S., & Tait, M. E. April 1997, 228–244.

Language Disorders in Children

The ability of children with specific language impairment to access and participate in an ongoing interaction. Brinton, B., Fujiki, M., Spencer, J. C., & Robinson, L. A. October 1997, 1011–1025.
Another look at nonverbal rule induction in children with SLI: Testing a flexible reconceptualization hypothesis. Kiernan, B., Snow, D., Swisher, L., & Vance, R. February 1997, 75–82.
Brain morphology in children with specific language impairment. Gauger, L. M., Lombardino, L. J., & Leonard, C. M. December 1997, 1272–1284.
Cognition and communication: Referential strategies used by preschoolers with specific language impairment. Johnston, J. R., Smith, L. B., & Box, P. October 1997, 964–974.
Communication of oral deaf and normally hearing children at 36 months of age. Nicholas, J. G., & Geers, A. E. December 1997, 1314–1327.
Effects of lexical intervention on the phonology of late talkers. Girolametto, L., Pearce, P. S., & Weitzman, E. April 1997, 338–348.
An examination of the morpheme BE in children with specific language impairment: The role of contractibility and grammatical form class. Cleave, P. L., & Rice, M. L. June 1997, 480–492.
The extent to which psychometric tests differentiate subgroups of children with SLI. Conti-Ramsden, G., Crutchley, A., & Botting, N. August 1997, 765–777.
Grammatical deficits in Italian-speaking children with specific language impairment. Bortolini, U., Caselli, M. C., & Leonard, L. B. August 1997, 809–820.
The influence of sentence elicitation variables on children's speech production. Weston, A. D. October 1997, 975–989.
Interaction among preschoolers with and without disabilities: Effects of across-the-day peer intervention. Goldstein, H., English, K., Shafer, K., & Kaczmarek, L. February 1997, 33–48.
Late-talkers at 2: Outcome at age 3. Rescorla, L., Roberts, J., & Dahlsgaard, K. June 1997, 556–566.
Learning a new poem: Memory for connected speech and phonological awareness in low-income children with and without specific language impairment. Fazio, B. B. December 1997, 1285–1297.
Look who's talking: A prospective study of familial transmission of language impairments. Spitz, R. V., Tallal, P., Flax, J., & Benasich, A. A. October 1997, 990–1001.
Naming difficulties in language-disabled children: Preliminary findings with the application of the tip-of-the-tongue paradigm. Faust, M., Dimitrovsky, L., & Davidi, S. October 1997, 1026–1036.
The nature of word-finding errors of preschoolers with and without word-finding deficits. McGregor, K. K. December 1997, 1232–1244.
Past-tense marking by children with and without specific language impairment. Oetting, J. B., & Horohov, J. E. February 1997, 62–74.
A preliminary account of the effect of otitis media on 15-month-olds' categorization and some implications for early language learning. Roberts, K. June 1997, 508–518.
Prevalence of specific language impairment in kindergarten children. Tomblin, J. B., Records, N. L., Buckwalter, P., Zhang, X., Smith, E., & O'Brien, M.

December 1997, 1245–1260.
Reading and metaphonological outcomes in late talkers. Paul, R., Murray, C., Clancy, K., & Andrews, D. October 1997, 1037–1047.
Reducing bias in language assessment: Processing-dependent measures. Campbell, T., Dollaghan, C., Needleman, H., & Janosky, J. June 1997, 519–525.
Response latency and verbal complexity: Stochastic models of individual differences in children with specific language impairments. Evans, J. L., Viele, K., & Kass, R. E. August 1997, 754–764.
Symbolic play of children with language impairment: A critical review. Casby, M. W. June 1997, 468–479.
Three accounts of the grammatical morpheme difficulties of English-speaking children with specific language impairment. Leonard, L. B., Eyer, J. A., Bedore, L. M., & Grela, B. G. August 1997, 741–753.
Two models of grammar facilitation in children with language impairments: Phase 2. Fey, M. E., Cleave, P. L., & Long, S. H. February 1997, 5–19.
Verb use in specific language impairment. Conti-Ramsden, G., & Jones, M. December 1997, 1298–1313.

Learning Disabilities

Effect of time and frequency manipulation on syllable perception in developmental dyslexics. McAnally, K. I., Hansen, P. C., Cornelissen, P. L., & Stein, J. F. August 1997, 912–924.
Naming difficulties in language-disabled children: Preliminary findings with the application of the tip-of-the-tongue paradigm. Faust, M., Dimitrovsky, L., & Davidi, S. October 1997, 1026–1036.
Reading and metaphonological outcomes in late talkers. Paul, R., Murray, C., Clancy, K., & Andrews, D. October 1997, 1037–1047.

Language Disorders in Mental Retardation

Interaction among preschoolers with and without disabilities: Effects of across-the-day peer intervention. Goldstein, H., English, K., Shafer, K., & Kaczmarek, L. February 1997, 33–48.
Signaling of noncomprehension by children and adolescents with mental retardation: Effects of problem type and speaker identity. Abbeduto, L., Short-Meyerson, K., Benson, G., & Dolish, J. February 1997, 20–32.

Assessment and Intervention

Assessment

The extent to which psychometric tests differentiate subgroups of children with SLI. Conti-Ramsden, G., Crutchley, A., & Botting, N. August 1997, 765–777.
Reducing bias in language assessment: Processing-dependent measures. Campbell, T., Dollaghan, C., Needleman, H., & Janosky, J. June 1997, 519–525.
Symbolic play of children with language impairment: A critical review. Casby, M. W. June 1997, 468–479.
A validity study of an implicit phonological awareness paradigm. Lance, D. M., Swanson, L. A., & Peterson, H. A. October 1997, 1002–1010.

Intervention

Effect of time and frequency manipulation on syllable perception in developmental dyslexics. McAnally, K. I., Hansen, P. C., Cornelissen, P. L., & Stein, J. F. August 1997, 912–924.
Effects of lexical intervention on the phonology of late talkers. Girolametto, L., Pearce, P. S., & Weitzman, E. April 1997, 338–348.
The influence of peer models on the play scripts of children with specific language impairment. Robertson, S. B., & Ellis Weismer, S. February 1997, 49–61.
Interaction among preschoolers with and without disabilities: Effects of across-the-day peer intervention. Goldstein, H., English, K., Shafer, K., & Kaczmarek, L. February 1997, 33–48.
Training and generalized production of *wh-* and NP-movement structures in agrammatic aphasia. Thompson, C. K., Shapiro, L. P., Ballard, K. J., Jacobs, B. J., Schneider, S. S., & Tait, M. E. April 1997, 228–244.
Two models of grammar facilitation in children with language impairments: Phase 2. Fey, M. E., Cleave, P. L., & Long, S. H. February 1997, 5–19.

Bilingualism

Age of second-language acquisition and perception of speech in noise. Mayo, L. H., Florentine, M., & Buus, S. June 1997, 686–693.

Genetics

Look who's talking: A prospective study of familial transmission of language impairments. Spitz, R. V., Tallal, P., Flax, J., & Benasich, A. A. October 1997, 990–1001.

Linguistics

Tutorial: An introduction to syntax. Shapiro, L. P. April 1997, 254–272.

Minority Assessment

Reducing bias in language assessment: Processing-dependent measures. Campbell, T., Dollaghan, C., Needleman, H., & Janosky, J. June 1997, 519–525.

Speech

Nature of Normal Speech

Development of Speech and Voice

Coordination of lip muscle activity by 2-year-old children during speech and nonspeech tasks. Ruark, J. L., & Moore, C. A. December 1997, 1373–1385.
Developmental changes in laryngeal and respiratory function with variations in sound pressure level. Stathopoulos, E. T., & Sapienza, C. M. June 1997, 595–614.

Anatomy and Physiology of the Adult Speech System

Acoustic measures of temporal intervals across speaking rates: Variability of syllable- and phrase-level relative timing. Max, L., & Caruso, A. J. October 1997, 1097–1110.
Developmental changes in laryngeal and respiratory function with variations in sound pressure level. Stathopoulos, E. T., & Sapienza, C. M. June 1997, 595–614.
An examination of the degrees of freedom of human jaw motion in speech and mastication. Ostry, D. J., Vatikiotis-Bateson, E., & Gribble, P. L. December 1997, 1341–1351.
Lip and jaw kinematics in bilabial stop consonant production. Löfqvist, A., & Gracco, V. L. August 1997, 877–893.
Maximum interlabial pressures in normal speakers. Hinton, V. A., & Arokiasamy, W. M. C. April 1997, 400–404.
On the registration of time and the patterning of speech movements. Lucero, J. C., Munhall, K. G., Gracco, V. L., & Ramsay, J. O. October 1997, 1111–1117.
The response to sudden change in vocal tract resistance during stop consonant production. Kim, J.-R., Zajac, D. J., Warren, D. W., Mayo, R., & Essick, G. K. August 1997, 848–857.
Speech breathing and the Lombard effect. Winkworth, A. L., & Davis, P. J. February 1997, 159–169.
A system for three-dimensional visualization of human jaw motion in speech. Guiard-Marigny, T., & Ostry, D. J. October 1997, 1118–1121.
Velocity profiles of lip protrusion across changes in speaking rate. Shaiman, S., Adams, S. G., & Kimelman, M. D. Z. February 1997, 144–158.

Perception of Speech

Acoustic cues to place of articulation and the McGurk effect: The role of release bursts, aspiration, and formant transitions. Green, K. P., & Norrix, L. W. June 1997, 646–665.
Age of second-language acquisition and perception of speech in noise. Mayo, L. H., Florentine, M., & Buus, S. June 1997, 686–693.

Effect of speech dialect on speech naturalness ratings: A systematic replication of Martin, Haroldson, and Triden (1984). Mackey, L. S., Finn, P., & Ingham, R. J. April 1997, 349–360.

Effect of time and frequency manipulation on syllable perception in developmental dyslexics. McAnally, K. I., Hansen, P. C., Cornelissen, P. L., & Stein, J. F. August 1997, 912–924.

Effects of age, speech rate, and type of test on temporal auditory processing. Vaughan, N. E., & Letowski, T. October 1997, 1192–1200.

Effects of stimulus variability on speech perception in listeners with hearing impairment. Kirk, K. I., Pisoni, D. B., & Miyamoto, R. C. December 1997, 1395–1405.

New developments in low-bit rate videotelephony for people who are deaf. Woelders, W. W., Frowein, H. W., Nielsen, J., Questa, P., & Sandini, G. December 1997, 1425–1433.

Phonetic category structure of [I]: Extent, best exemplars, and organization. Sussman, J. E., & Gekas, B. December 1997, 1406–1424.

Relationships between subjective ratings and objective measures of performance in speechreading sentences. Demorest, M. E., & Bernstein, L. E. August 1997, 900–911.

Speech recognition as a function of the number of electrodes used in the SPEAK cochlear implant speech processor. Fishman, K. E., Shannon, R. V., & Slattery, W. H. October 1997, 1201–1215.

Stuttering and communicative suitability of speech. Franken, M.-C., van Bezooijen, R., & Boves, L. February 1997, 83–94.

Speech and Voice Disorders

Articulation and Resonance Disorders

Developmental apraxia of speech: I. Descriptive and theoretical perspectives. Shriberg, L. D., Aram, D. M., & Kwiatkowski, J. April 1997, 273–285.

Developmental apraxia of speech: II. Toward a diagnostic marker. Shriberg, L. D., Aram, D. M., & Kwiatkowski, J. April 1997, 286–312.

Developmental apraxia of speech: III. A subtype marked by inappropriate stress. Shriberg, L. D., Aram, D. M., & Kwiatkowski, J. April 1997, 313–337.

Effects of lexical intervention on the phonology of late talkers. Girolametto, L., Pearce, P. S., & Weitzman, E. April 1997, 338–348.

Epidemiological and offspring analyses of developmental speech disorders using data from the Colorado Adoption Project. Felsenfeld, S., & Plomin, R. August 1997, 778–791.

The influence of sentence elicitation variables on children's speech production. Weston, A. D. October 1997, 975–989.

The percentage of consonants correct (PCC) metric: Extensions and reliability data. Shriberg, L. D., Austin, D., Lewis, B. A., McSweeny, J. L., & Wilson, D. L. August 1997, 708–722.

The Speech Disorders Classification System (SDCS): Extensions and lifespan reference data. Shriberg, L. D., Austin, D., Lewis, B. A., McSweeny, J. L., & Wilson, D. L. August 1997, 723–740.

Craniofacial and Other Anomalies

The response to sudden change in vocal tract resistance during stop consonant production. Kim, J.-R., Zajac, D. J., Warren, D. W., Mayo, R., & Essick, G. K. August 1997, 848–857.

Physiologically Based Speech Disorders

Effect of time and frequency manipulation on syllable perception in developmental dyslexics. McAnally, K. I., Hansen, P. C., Cornelissen, P. L., & Stein, J. F. August 1997, 912–924.

Preliminary voice and speech analysis following fetal dopamine transplants in 5 individuals with Parkinson disease. Baker, K. K., Ramig, L. O., Johnson, A. B., & Freed, C. R. June 1997, 615–626.

The response to sudden change in vocal tract resistance during stop consonant production. Kim, J.-R., Zajac, D. J., Warren, D. W., Mayo, R., & Essick, G. K. August 1997, 848–857.

Spectral properties of fricatives in amyotrophic lateral sclerosis. Tjaden, K., & Turner, G. S. December 1997, 1358–1372.

Stuttering and Other Fluency Disturbances

Adults recovered from stuttering without formal treatment: Perceptual assessment of speech normalcy. Finn, P. August 1997, 821–831.

Children recovered from stuttering without formal treatment: Perceptual assessment of speech normalcy. Finn, P., Ingham, R. J., Ambrose, N., & Yairi, E. August 1997, 867–876.

Control of children's stuttering with response-contingent time-out: Behavioral, perceptual, and acoustic data. Onslow, M., Packman, A., Stocker, S., van Doorn, J., & Siegel, G. M. February 1997, 121–133.

Development of a two-stage procedure for the automatic recognition of dysfluencies in the speech of children who stutter: I. Psychometric procedures appropriate for selection of training material for lexical dysfluency classifiers. Howell, P., Sackin, S., & Glenn, K. October 1997, 1073–1084.

Development of a two-stage procedure for the automatic recognition of dysfluencies in the speech of children who stutter: II. ANN recognition of repetitions and prolongations with supplied word segment markers. Howell, P., Sackin, S., & Glenn, K. October 1997, 1085–1096.

Disfluency in spasmodic dysphonia: A multivariate analysis. Cannito, M. P., Burch, A. R., Watts, C., Rappold, P. W., Hood, S. B., & Sherrard, K. June 1997, 627–641.

Effect of altered auditory feedback on people who stutter during scripted telephone conversations. Zimmerman, S., Kalinowski, J., Stuart, A., & Rastatter, M. October 1997, 1130–1134.

Effect of speech dialect on speech naturalness ratings: A systematic replication of Martin, Haroldson, and Triden (1984). Mackey, L. S., Finn, P., & Ingham, R. J. April 1997, 349–360.

The effects of life stressors and daily stressors on stuttering. Blood, I. M., Wertz, H., Blood, G. W., Bennett, S., & Simpson, K. C. February 1997, 134–143.

Epidemiological and offspring analyses of developmental speech disorders using data from the Colorado Adoption Project. Felsenfeld, S., & Plomin, R. August 1997, 778–791.

Experimental investigation of the effects of frequency-altered auditory feedback on the speech of adults who stutter. Ingham, R. J., Moglia, R. A., Frank, P., Ingham, J. C., & Cordes, A. K. April 1997, 361–372.

The genetic basis of persistence and recovery in stuttering. Ambrose, N. G., Cox, N. J., & Yairi, E. June 1997, 567–580.

Identifying the authoritative judgments of stuttering: Comparisons of self-judgments and observer judgments. Ingham, R. J., & Cordes, A. K. June 1997, 581–594.

Language production abilities of children whose stuttering persisted or recovered. Watkins, R. V., & Yairi, E. April 1997, 385–399.

Lexicalization in adults who stutter. Prins, D., Main, V., & Wampler, S. April 1997, 373–384.

Modifications in aerodynamic variables by persons who stutter under fluency-evoking conditions. Stager, S. V., Denman, D. W., & Ludlow, C. L. August 1997, 832–847.

P300 event-related potentials in stutterers and nonstutterers. Morgan, M. D., Cranford, J. L., & Burk, K. December 1997, 1334–1340.

Selected temporal, grammatical, and phonological characteristics of conversational utterances produced by children who stutter. Logan, K. J., & Conture, E. G. February 1997, 107–120.

Stuttering and communicative suitability of speech. Franken, M.-C., van Bezooijen, R., & Boves, L. February 1997, 83–94.

Syntactic complexity, fluency, and accuracy of sentence imitation in

adolescents. Silverman, S. W., & Ratner, N. B. February 1997, 95–106.

Voice and Other Laryngeal Disorders

Disfluency in spasmodic dysphonia: A multivariate analysis. Cannito, M. P., Burch, A. R., Watts, C., Rappold, P. W., Hood, S. B., & Sherrard, K. June 1997, 627–641.

Long-term phonatory instability in individuals with multiple sclerosis. Hartelius, L., Buder, E. H., & Strand, E. A. October 1997, 1056–1072.

Assessment and Intervention

Screening

Miniature head-mounted microphone for voice perturbation analysis. Winholtz, W. S., & Titze, I. R. August 1997, 894–899.

Assessment

Comparative assessment of electroglottographic and acoustic measures of jitter in pathological voices. Vieira, M. N., McInnes, F. R,. & Jack, M. A. February 1997, 170–182.

Development of a two-stage procedure for the automatic recognition of dysfluencies in the speech of children who stutter: I. Psychometric procedures appropriate for selection of training material for lexical dysfluency classifiers. Howell, P., Sackin, S., & Glenn, K. October 1997, 1073–1084.

Development of a two-stage procedure for the automatic recognition of dysfluencies in the speech of children who stutter: II. ANN recognition of repetitions and prolongations with supplied word segment markers. Howell, P., Sackin, S., & Glenn, K. October 1997, 1085–1096.

Disfluency in spasmodic dysphonia: A multivariate analysis. Cannito, M. P., Burch, A. R., Watts, C., Rappold, P. W., Hood, S. B., & Sherrard, K. June 1997, 627–641.

Effect of speech dialect on speech naturalness ratings: A systematic replication of Martin, Haroldson, and Triden (1984). Mackey, L. S., Finn, P., & Ingham, R. J. April 1997, 349–360.

Estimating phonation threshold pressure. Fisher, K. V., & Swank, P. R. October 1997, 1122–1129.

Identifying the authoritative judgments of stuttering: Comparisons of self-judgments and observer judgments. Ingham, R. J., & Cordes, A. K. June 1997, 581–594.

Miniature head-mounted microphone for voice perturbation analysis. Winholtz, W. S., & Titze, I. R. August 1997, 894–899.

Acoustic Measures of Speech and Voice

Acoustic measures of temporal intervals across speaking rates: Variability of syllable- and phrase-level relative timing. Max, L., & Caruso, A. J. October 1997, 1097–1110.

Comparative assessment of electroglottographic and acoustic measures of jitter in pathological voices. Vieira, M. N., McInnes, F. R., & Jack, M. A. February 1997, 170–182.

Development of a two-stage procedure for the automatic recognition of dysfluencies in the speech of children who stutter: II. ANN recognition of repetitions and prolongations with supplied word segment markers. Howell, P., Sackin, S., & Glenn, K. October 1997, 1085–1096.

Developmental changes in laryngeal and respiratory function with variations in sound pressure level. Stathopoulos, E. T., & Sapienza, C. M. June 1997, 595–614.

Interspeaker variation in habitual speaking rate: Evidence for a neuromuscular component. Tsao, Y.-C., & Weismer, G. August 1997, 858–866.

Long-term phonatory instability in individuals with multiple sclerosis. Hartelius, L., Buder, E. H., & Strand, E. A. October 1997, 1056–1072.

Miniature head-mounted microphone for voice perturbation analysis. Winholtz, W. S., & Titze, I. R. August 1997, 894–899.

A preliminary investigation of the effects of gender and race on voice onset time. Ryalls, J., Zipprer, A., & Baldauff, P. June 1997, 642–645.

Preliminary voice and speech analysis following fetal dopamine transplants in 5 individuals with Parkinson disease. Baker, K. K., Ramig, L. O., Johnson, A. B., & Freed, C. R. June 1997, 615–626.

Spectral properties of fricatives in amyotrophic lateral sclerosis. Tjaden, K., & Turner, G. S. December 1997, 1358–1372.

Intervention

Effect of speech dialect on speech naturalness ratings: A systematic replication of Martin, Haroldson, and Triden (1984). Mackey, L. S., Finn, P., & Ingham, R. J. April 1997, 349–360.

Effect of time and frequency manipulation on syllable perception in developmental dyslexics. McAnally, K. I., Hansen, P. C., Cornelissen, P. L., & Stein, J. F. August 1997, 912–924.

Effects of lexical intervention on the phonology of late talkers. Girolametto, L., Pearce, P. S., & Weitzman, E. April 1997, 338–348.

Experimental investigation of the effects of frequency-altered auditory feedback on the speech of adults who stutter. Ingham, R. J., Moglia, R. A., Frank, P., Ingham, J. C., & Cordes, A. K. April 1997, 361–372.

Instrumentation for Diagnosis, Treatment, and Research

Comparative assessment of electroglottographic and acoustic measures of jitter in pathological voices. Vieira, M. N., McInnes, F. R., & Jack, M. A. February 1997, 170–182.

Development of a two-stage procedure for the automatic recognition of dysfluencies in the speech of children who stutter: II. ANN recognition of repetitions and prolongations with supplied word segment markers. Howell, P., Sackin, S., & Glenn, K. October 1997, 1085–1096.

Developmental changes in laryngeal and respiratory function with variations in sound pressure level. Stathopoulos, E. T., & Sapienza, C. M. June 1997, 595–614.

Effect of speech dialect on speech naturalness ratings: A systematic replication of Martin, Haroldson, and Triden (1984). Mackey, L. S., Finn, P., & Ingham, R. J. April 1997, 349–360.

Estimating phonation threshold pressure. Fisher, K. V., & Swank, P. R. October 1997, 1122–1129.

The frequency sampling method of digital filter design: Comments on Hillenbrand and Houde (1996). Roark, R. M. April 1997, 405–408.

Miniature head-mounted microphone for voice perturbation analysis. Winholtz, W. S., & Titze, I. R. August 1997, 894–899.

Stuttering and communicative suitability of speech. Franken, M.-C., van Bezooijen, R., & Boves, L. February 1997, 83–94.

Vocal reaction times of children with CAPD, age-matched peers, and young adults to printed words. Dagenais, P. A., Cox, M., Southwood, M. H., & Smith, S. C. June 1997, 694–703.

Nonspeech Communication Systems

New developments in low-bit rate videotelephony for people who are deaf. Woelders, W. W., Frowein, H. W., Nielsen, J., Questa, P., & Sandini, G. December 1997, 1425–1433.

Digital Speech Processing

Comments on finite impulse response filters. Hillenbrand, J., & Houde, R. A. April 1997, 408–409.

Dysphagia

A prospective, double-blind, randomized study on the use of a topical anesthetic, vasoconstrictor, and placebo during transnasal flexible fiberoptic endoscopy. Leder, S. B., Ross, D. A., Briskin, K. B., & Sasaki, C. T. December 1997, 1352–1357.

Etiology

Epidemiological and offspring analyses of developmental speech disorders using

data from the Colorado Adoption Project. Felsenfeld, S., & Plomin, R. August 1997, 778–791.

Genetics

The genetic basis of persistence and recovery in stuttering. Ambrose, N. G., Cox, N. J., & Yairi, E. June 1997, 567–580.

Speech Motor Control

Acoustic measures of temporal intervals across speaking rates: Variability of syllable- and phrase-level relative timing. Max, L., & Caruso, A. J. October 1997, 1097–1110.

Speech Signal Processing

The frequency sampling method of digital filter design: Comments on Hillenbrand and Houde (1996). Roark, R. M. April 1997, 405–408.

Professional and General Scientific Issues

Professional Affairs

Interdisciplinary Concerns

Effect of time and frequency manipulation on syllable perception in developmental dyslexics. McAnally, K. I., Hansen, P. C., Cornelissen, P. L., & Stein, J. F. August 1997, 912–924.

Professional Training

Clinical Supervision and Interaction

Effect of time and frequency manipulation on syllable perception in developmental dyslexics. McAnally, K. I., Hansen, P. C., Cornelissen, P. L., & Stein, J. F. August 1997, 912–924.

Title Index

The ability of children with specific language impairment to access and participate in an ongoing interaction. Brinton, B., Fujiki, M., Spencer, J. C., & Robinson, L. A. October 1997, 1011–1025.

Acoustic cues to place of articulation and the McGurk effect: The role of release bursts, aspiration, and formant transitions. Green, K. P., & Norrix, L. W. June 1997, 646–665.

Acoustic measures of temporal intervals across speaking rates: Variability of syllable- and phrase-level relative timing. Max, L., & Caruso, A. J. October 1997, 1097–1110.

Adults recovered from stuttering without formal treatment: Perceptual assessment of speech normalcy. Finn, P. August 1997, 821–831.

Age of second-language acquisition and perception of speech in noise. Mayo, L. H., Florentine, M., & Buus, S. June 1997, 686–693.

Age-related and gender-related changes in monaural speech recognition. Dubno, J. R., Lee, F.-S., Matthews, L. J., & Mills, J. H. April 1997, 444–452.

Another look at nonverbal rule induction in children with SLI: Testing a flexible reconceptualization hypothesis. Kiernan, B., Snow, D., Swisher, L., & Vance, R. February 1997, 75–82.

Auditory and auditory-visual perception of clear and conversational speech. Helfer, K. S. April 1997, 432–443.

Auditory development in complex tasks of comodulation masking release. Hall, J. W. III, Grose, J. H., & Dev, M. B. August 1997, 946–954.

Auditory processing in individuals with mild aphasia: A study of resource allocation. Murray, L. L., Holland, A. L., & Beeson, P. M. August 1997, 792–808.

Brain morphology in children with specific language impairment. Gauger, L. M., Lombardino, L. J., & Leonard, C. M. December 1997, 1272–1284.

Children recovered from stuttering without formal treatment: Perceptual assessment of speech normalcy. Finn, P., Ingham, R. J., Ambrose, N., & Yairi, E. August 1997, 867–876.

COAE thresholds: 1. Effects of equal-amplitude versus subtraction methods. Fitzgerald, T. S., & Prieve, B. A. October 1997, 1164–1176.

Cochlear implant use by prelingually deafened children: The influences of age at implant and length of device use. Fryauf-Bertschy, H., Tyler, R. S., Kelsay, D. M. R., Gantz, B. J., & Woodworth, G. G. February 1997, 183–199.

Cognition and communication: Referential strategies used by preschoolers with specific language impairment. Johnston, J. R., Smith, L. B., & Box, P. October 1997, 964–974.

Comments on finite impulse response filters. Hillenbrand, J., & Houde, R. A. April 1997, 408–409.

Communication of oral deaf and normally hearing children at 36 months of age. Nicholas, J. G., & Geers, A. E. December 1997, 1314–1327.

Comparative assessment of electroglottographic and acoustic measures of jitter in pathological voices. Vieira, M. N., McInnes, F. R., & Jack, M. A. February 1997, 170–182.

A comparison of the benefit provided by well-fit linear hearing aids and instruments with automatic reductions of low-frequency gain. Humes, L. E., Christensen, L. A., Bess, F. H., & Hedley-Williams, A. June 1997, 666–685.

Control of children's stuttering with response-contingent time-out: Behavioral, perceptual, and acoustic data. Onslow, M., Packman, A., Stocker, S., van Doorn, J., & Siegel, G. M. February 1997, 121–133.

Coordination of lip muscle activity by 2-year-old children during speech and nonspeech tasks. Ruark, J. L., & Moore, C. A. December 1997, 1373–1385.

Determinants of sentence comprehension in aphasic patients in sentence-picture matching tasks. Caplan, D., Waters, G. S., & Hildebrandt, N. June 1997, 542–555.

Development of a two-stage procedure for the automatic recognition of dysfluencies in the speech of children who stutter: I. Psychometric procedures appropriate for selection of training material for lexical dysfluency classifiers. Howell, P., Sackin, S., & Glenn, K. October 1997, 1073–1084.

Development of a two-stage procedure for the automatic recognition of dysfluencies in the speech of children who stutter: II. ANN recognition of repetitions and prolongations with supplied word segment markers. Howell, P., Sackin, S., & Glenn, K. October 1997, 1085–1096.

Developmental apraxia of speech: I. Descriptive and theoretical perspectives. Shriberg, L. D., Aram, D. M., & Kwiatkowski, J. April 1997, 273–285.

Developmental apraxia of speech: II. Toward a diagnostic marker. Shriberg, L. D., Aram, D. M., & Kwiatkowski, J. April 1997, 286–312.

Developmental apraxia of speech: III. A subtype marked by inappropriate stress. Shriberg, L. D., Aram, D. M., & Kwiatkowski, J. April 1997, 313–337.

Developmental changes in laryngeal and respiratory function with variations in sound pressure level. Stathopoulos, E. T., & Sapienza, C. M. June 1997, 595–614.

Disfluency in spasmodic dysphonia: A multivariate analysis. Cannito, M. P., Burch, A. R., Watts, C., Rappold, P. W., Hood, S. B., & Sherrard, K. June 1997, 627–641.

Effect of acoustic cues on labeling fricatives and affricates. Hedrick, M. August 1997, 925–938.

Effect of altered auditory feedback on people who stutter during scripted telephone conversations. Zimmerman, S., Kalinowski, J., Stuart, A., & Rastatter, M. October 1997, 1130–1134.

The effect of communication mode on the development of phonemic awareness in prelingually deaf students. Miller, P. October 1997, 1151–1163.

Effect of low-frequency gain reduction on speech recognition and its relation to upward spread of masking. Cook, J. A., Bacon, S. P., & Sammeth, C. A. April 1997, 410–422.

Effect of relative amplitude and formant transitions on perception of place of articulation by adult listeners with cochlear implants. Hedrick, M. S., & Carney, A. E. December 1997, 1445–1457.
Effect of speech dialect on speech naturalness ratings: A systematic replication of Martin, Haroldson, and Triden (1984). Mackey, L. S., Finn, P., & Ingham, R. J. April 1997, 349–360.
Effect of time and frequency manipulation on syllable perception in developmental dyslexics. McAnally, K. I., Hansen, P. C., Cornelissen, P. L., & Stein, J. F. August 1997, 912–924.
Effects of age, speech rate, and type of test on temporal auditory processing. Vaughan, N. E., & Letowski, T. October 1997, 1192–1200.
Effects of lexical intervention on the phonology of late talkers. Girolametto, L., Pearce, P. S., & Weitzman, E. April 1997, 338–348.
The effects of life stressors and daily stressors on stuttering. Blood, I. M., Wertz, H., Blood, G. W., Bennett, S., & Simpson, K. C. February 1997, 134–143.
Effects of stimulus variability on speech perception in listeners with hearing impairment. Kirk, K. I., Pisoni, D. B., & Miyamoto, R. C. December 1997, 1395–1405.
The efficacy of computer-provided reading treatment for chronic aphasic adults. Katz, R. C., & Wertz, R. T. June 1997, 493–507.
Epidemiological and offspring analyses of developmental speech disorders using data from the Colorado Adoption Project. Felsenfeld, S., & Plomin, R. August 1997, 778–791.
Erratum: Ingham et al., Functional-lesion investigation of developmental stuttering with positron emission tomography (Dec. 1996: 1208–1227). February 1997, 182.
Estimating phonation threshold pressure. Fisher, K. V., & Swank, P. R. October 1997, 1122–1129.
An examination of the degrees of freedom of human jaw motion in speech and mastication. Ostry, D. J., Vatikiotis-Bateson, E., & Gribble, P. L. December 1997, 1341–1351.
An examination of the morpheme BE in children with specific language impairment: The role of contractibility and grammatical form class. Cleave, P. L., & Rice, M. L. June 1997, 480–492.
Experimental investigation of the effects of frequency-altered auditory feedback on the speech of adults who stutter. Ingham, R. J., Moglia, R. A., Frank, P., Ingham, J. C., & Cordes, A. K. April 1997, 361–372.
Extended high-frequency thresholds in older adults. Matthews, L. J., Lee, F.-S., Mills, J. H., & Dubno, J. R. February 1997, 208–214.
The extent to which psychometric tests differentiate subgroups of children with SLI. Conti-Ramsden, G., Crutchley, A., & Botting, N. August 1997, 765–777.
The frequency sampling method of digital filter design: Comments on Hillenbrand and Houde (1996). Roark, R. M. April 1997, 405–408.
Gap detection as a function of stimulus loudness for listeners with and without hearing loss. Nelson, P. B., & Thomas, S. D. December 1997, 1387–1394.
The genetic basis of persistence and recovery in stuttering. Ambrose, N. G., Cox, N. J., & Yairi, E. June 1997, 567–580.
Grammatical deficits in Italian-speaking children with specific language impairment. Bortolini, U., Caselli, M. C., & Leonard, L. B. August 1997, 809–820.
Identifying the authoritative judgments of stuttering: Comparisons of self-judgments and observer judgments. Ingham, R. J., & Cordes, A. K. June 1997, 581–594.
The influence of peer models on the play scripts of children with specific language impairment. Robertson, S. B., & Ellis Weismer, S. February 1997, 49–61.
The influence of sentence elicitation variables on children's speech production. Weston, A. D. October 1997, 975–989.
Interaction among preschoolers with and without disabilities: Effects of across-the-day peer intervention. Goldstein, H., English, K., Shafer, K., & Kaczmarek, L. February 1997, 33–48.
Interspeaker variation in habitual speaking rate: Evidence for a neuromuscular component. Tsao, Y.-C., & Weismer, G. August 1997, 858–866.
Japanese speakers of American English: Competence with connectives in written language. Steffani, S. A., & Nippold, M. A. October 1997, 1048–1055.
Language production abilities of children whose stuttering persisted or recovered. Watkins, R. V., & Yairi, E. April 1997, 385–399.
Late-talkers at 2: Outcome at age 3. Rescorla, L., Roberts, J., & Dahlsgaard, K. June 1997, 556–566.
Learning a new poem: Memory for connected speech and phonological awareness in low-income children with and without specific language impairment. Fazio, B. B. December 1997, 1285–1297.
Lexicalization in adults who stutter. Prins, D., Main, V., & Wampler, S. April 1997, 373–384.
Lip and jaw kinematics in bilabial stop consonant production. Löfqvist, A., & Gracco, V. L. August 1997, 877–893.
Long-term phonatory instability in individuals with multiple sclerosis. Hartelius, L., Buder, E. H., & Strand, E. A. October 1997, 1056–1072.
Look who's talking: A prospective study of familial transmission of language impairments. Spitz, R. V., Tallal, P., Flax, J., & Benasich, A. A. October 1997, 990–1001.
Maximum interlabial pressures in normal speakers. Hinton, V. A., & Arokiasamy, W. M. C. April 1997, 400–404.
A meta-analytic procedure shows an age-related decline in picture naming: Comments on Goulet, Ska, and Kahn (1994). Feyereisen, P. December 1997, 1328–1333.
Miniature head-mounted microphone for voice perturbation analysis. Winholtz, W. S., & Titze, I. R. August 1997, 894–899.
MLD in children: Effects of signal and masker bandwidths. Grose, J. H., Hall, J. W. III, & Dev, M. B. August 1997, 955–959.
Modifications in aerodynamic variables by persons who stutter under fluency-evoking conditions. Stager, S. V., Denman, D. W., & Ludlow, C. L. August 1997, 832–847.
Modulation masking in listeners with sensorineural hearing loss. Lorenzi, C., Micheyl, C., Berthommier, F., & Portalier, S. February 1997, 200–207.
Multisensory speech perception of young children with profound hearing loss. Kishon-Rabin, L., Haras, N., & Bergman, M. October 1997, 1135–1150.
Naming difficulties in language-disabled children: Preliminary findings with the application of the tip-of-the-tongue paradigm. Faust, M., Dimitrovsky, L., & Davidi, S. October 1997, 1026–1036.
The nature of word-finding errors of preschoolers with and without word-finding deficits. McGregor, K. K. December 1997, 1232–1244.
New developments in low-bit rate videotelephony for people who are deaf. Woelders, W. W., Frowein, H. W., Nielsen, J., Questa, P., & Sandini, G. December 1997, 1425–1433.
On the registration of time and the patterning of speech movements. Lucero, J. C., Munhall, K. G., Gracco, V. L., & Ramsay, J. O. October 1997, 1111–1117.
P300 event-related potentials in stutterers and nonstutterers. Morgan, M. D., Cranford, J. L., & Burk, K. December 1997, 1334–1340.
Past-tense marking by children with and without specific language impairment. Oetting, J. B., & Horohov, J. E. February 1997, 62–74.
The percentage of consonants correct (PCC) metric: Extensions and reliability data. Shriberg, L. D., Austin, D., Lewis, B. A., McSweeny, J. L., & Wilson, D. L. August 1997, 708–722.
The perception of internal circuit noise in hearing aids by listeners with normal hearing. Agnew, J., & Block, M. October 1997, 1177–1191.

Phonetic category structure of [I]: Extent, best exemplars, and organization. Sussman, J. E., & Gekas, B. December 1997, 1406–1424.
Precision of tympanometric measurements. Gaihede, M., & Ovesen, T. February 1997, 215–222.
A preliminary account of the effect of otitis media on 15-month-olds' categorization and some implications for early language learning. Roberts, K. June 1997, 508–518.
A preliminary investigation of the effects of gender and race on voice onset time. Ryalls, J., Zipprer, A., & Baldauff, P. June 1997, 642–645.
Preliminary voice and speech analysis following fetal dopamine transplants in 5 individuals with Parkinson disease. Baker, K. K., Ramig, L. O., Johnson, A. B., & Freed, C. R. June 1997, 615–626.
Prevalence of specific language impairment in kindergarten children. Tomblin, J. B., Records, N. L., Buckwalter, P., Zhang, X., Smith, E., & O'Brien, M. December 1997, 1245–1260.
A prospective, double-blind, randomized study on the use of a topical anesthetic, vasoconstrictor, and placebo during transnasal flexible fiberoptic endoscopy. Leder, S. B., Ross, D. A., Briskin, K. B., & Sasaki, C. T. December 1997, 1352–1357.
Proverb explanation through the lifespan: A developmental study of adolescents and adults. Nippold, M. A., Uhden, L. D., & Schwarz, I. E. April 1997, 245–253.
Reading and metaphonological outcomes in late talkers. Paul, R., Murray, C., Clancy, K., & Andrews, D. October 1997, 1037–1047.
Recognizing famous voices: Influence of stimulus duration and different types of retrieval cues. Schweinberger, S. R., Herholz, A., & Sommer, W. April 1997, 453–463.
Reducing bias in language assessment: Processing-dependent measures. Campbell, T., Dollaghan, C., Needleman, H., & Janosky, J. June 1997, 519–525.
The relationship between middle-class parents' book-sharing discussion and their preschoolers' abstract language development. van Kleeck, A., Gillam, R. B., Hamilton, L., & McGrath, C. December 1997, 1261–1271.
Relationships between subjective ratings and objective measures of performance in speechreading sentences. Demorest, M. E., & Bernstein, L. E. August 1997, 900–911.
Response latency and verbal complexity: Stochastic models of individual differences in children with specific language impairments. Evans, J. L., Viele, K., & Kass, R. E. August 1997, 754–764.
The response to sudden change in vocal tract resistance during stop consonant production. Kim, J.-R., Zajac, D. J., Warren, D. W., Mayo, R., & Essick, G. K. August 1997, 848–857.
Role of fundamental frequency differences in the perceptual separation of competing vowel sounds by listeners with normal hearing and listeners with hearing loss. Arehart, K. H., King, C. A., & McLean-Mudgett, K. S. December 1997, 1434–1444.
Scalp potentials evoked by amplitude-modulated tones in dyslexia. McAnally, K. I., & Stein, J. F. August 1997, 939–945.
Selected cognitive factors and speech recognition performance among young and elderly listeners. Gordon-Salant, S., & Fitzgibbons, P. J. April 1997, 423–431.
Selected temporal, grammatical, and phonological characteristics of conversational utterances produced by children who stutter. Logan, K. J., & Conture, E. G. February 1997, 107–120.
Signaling of noncomprehension by children and adolescents with mental retardation: Effects of problem type and speaker identity. Abbeduto, L., Short-Meyerson, K., Benson, G., & Dolish, J. February 1997, 20–32.
Spectral properties of fricatives in amyotrophic lateral sclerosis. Tjaden, K., & Turner, G. S. December 1997, 1358–1372.
Speech breathing and the Lombard effect. Winkworth, A. L., & Davis, P. J. February 1997, 159–169.
The Speech Disorders Classification System (SDCS): Extensions and lifespan reference data. Shriberg, L. D., Austin, D., Lewis, B. A., McSweeny, J. L., & Wilson, D. L. August 1997, 723–740.
Speech recognition as a function of the number of electrodes used in the SPEAK cochlear implant speech processor. Fishman, K. E., Shannon, R. V., & Slattery, W. H. October 1997, 1201–1215.
Stuttering and communicative suitability of speech. Franken, M.-C., van Bezooijen, R., & Boves, L. February 1997, 83–94.
Symbolic play of children with language impairment: A critical review. Casby, M. W. June 1997, 468–479.
Syntactic complexity, fluency, and accuracy of sentence imitation in adolescents. Silverman, S. W., & Ratner, N. B. February 1997, 95–106.
A system for three-dimensional visualization of human jaw motion in speech. Guiard-Marigny, T., & Ostry, D. J. October 1997, 1118–1121.
Three accounts of the grammatical morpheme difficulties of English-speaking children with specific language impairment. Leonard, L. B., Eyer, J. A., Bedore, L. M., & Grela, B. G. August 1997, 741–753.
Training and generalized production of *wh-* and NP-movement structures in agrammatic aphasia. Thompson, C. K., Shapiro, L. P., Ballard, K. J., Jacobs, B. J., Schneider, S. S., & Tait, M. E. April 1997, 228–244.
Trochaic template use in early words and phrases. McGregor, K. K., & Johnson, A. C. December 1997, 1220–1231.
Truncation patterns in English-speaking children's word productions. Kehoe, M., & Stoel-Gammon, C. June 1997, 526–541.
Tutorial: An introduction to syntax. Shapiro, L. P. April 1997, 254–272.
Two models of grammar facilitation in children with language impairments: Phase 2. Fey, M. E., Cleave, P. L., & Long, S. H. February 1997, 5–19.
A validity study of an implicit phonological awareness paradigm. Lance, D. M., Swanson, L. A., & Peterson, H. A. October 1997, 1002–1010.
Velocity profiles of lip protrusion across changes in speaking rate. Shaiman, S., Adams, S. G., & Kimelman, M. D. Z. February 1997, 144–158.
Verb use in specific language impairment. Conti-Ramsden, G., & Jones, M. December 1997, 1298–1313.
Vocal reaction times of children with CAPD, age-matched peers, and young adults to printed words. Dagenais, P. A., Cox, M., Southwood, M. H., & Smith, S. C. June 1997, 694–703.
